

A History Built on Excellence

At HUDSON, we understand there is more to the design and production of fan blades than patented technology. We understand that there is more than establishing the highest standards in a manufacturing process, and we understand that there is more than providing the highest quality products and services to our clients – we understand that Hudson has a history.

A history developed over many years of producing the finest fan blades in the industry. We once again raise the standard with the introduction of the latest member of our famous Tuf-Lite® lineage.

With a history of fan blade production since 1955, Hudson continues to push the limits of axial flow fan technology.

Tuf-Lite III™

- HUDSON's Highest efficiency blade to date
- Developed from the most severe strength testing program to date
- One piece FRP construction
- Leading and trailing edge protection
- Superior "UV" protection
- Individually balanced, interchangeable blades
- Installs in current Hudson hub design
- Size ranges from 6 ft. to 33 ft. in diameter
